About the Practice Test Scoring Guides

The Smarter Balanced Mathematics Practice Test Scoring Guides provide details about the items, student response types, correct responses, and related scoring considerations for the Smarter Balanced Practice Test items. The items selected for the Practice Test are designed to reflect

- a broad coverage of claims and targets that closely mirror the summative blueprint.
- a range of student response types.
- a breadth of difficulty levels across the items, ranging from easier to more difficult items.
- a sample of performance tasks with open-ended response types that allow students to demonstrate knowledge related to critical thinking and application.

It is important to note that all student response types are not fully represented on every practice test, but a distribution can be observed across all the practice tests. The items presented are reflective of refinements and adjustments to language based on pilot test results and expert recommendations from both content and accessibility perspectives.

Within this guide, each item is presented with the following information¹:

- Claim
- Domain
- Target²
- Depth of Knowledge (DOK)
- Common Core State Standards for Mathematical Content (CONTENT)
- Common Core State Standards for Mathematical Practice (MP)
- Answer key or exemplar
- Static presentation of the item
- Static presentation of student response field(s)
- Rubric and applicable score points for each item

The following items are representative of the kinds of items that students can expect to experience when taking the Computer Adaptive Test (CAT) portion of the summative assessment for Grade 5. A separate document is available that provides a Grade 5 sample performance task and scoring guide.

¹ Most of these terms (Claim, Domain, Target, DOK, etc.) are defined in various other Smarter Balanced documents, as well as the Common Core State Standards for Mathematics. Refer to the *Content Specifications for the Summative Assessment of the Common Core State Standards for Mathematics* for more information.

² When more than one target is presented, the first one listed is considered the primary target for the item.

Item	Claim	Domain	Target	DOK	CONTENT	MP	Key
#1	1	NBT	C	1	5.NBT.A.2	N/A	C

623

Which number is equal to 10^4 ?

- (A) 100
- (B) 1,000
- (C) 10,000
- (D) 100,000

Key: C

Rubric: (1 point) Student selects the correct number.

Item	Claim	Domain	Target	DOK	CONTENT	MP	Key
#2	1	NBT	D	1	5.NBT.B.6	N/A	125

1781

Enter the quotient.

$$3125 \div 25$$

←
→
↶
↷
✖

1	2	3
4	5	6
7	8	9
0	.	$\frac{\square}{\square}$

Key: 125

Rubric: (1 point) Student enters the correct quotient.

Item	Claim	Domain	Target	DOK	CONTENT	MP	Key
#3	1	NF	F	1	5.NF.B.4	N/A	C

1891

Which fraction model best represents $4 \times \frac{2}{3}$?

- (A) 
- (B) 
- (C) 
- (D) 

Key: C

Rubric: (1 point) Student selects the correct fraction model.

Item	Claim	Domain	Target	DOK	CONTENT	MP	Key
#4	2	MD, NBT	A	2	5.MD.A.1, 5.NBT.B.7	2	1435

1954

Use this pentagon to solve the problem.

Enter the perimeter, in **centimeters**, of the pentagon.

←
→
↶
↷
✖

1	2	3
4	5	6
7	8	9
0	.	$\frac{\square}{\square}$

Key: 1435

Rubric: (2 points) Student enters the correct perimeter in centimeters.

(1 point) Student correctly adds decimals to the hundredths but does not convert to centimeters (14.35 OR 14350 OR 1.435 OR any conversion that includes the digits 1435 including equivalents).

Item	Claim	Domain	Target	DOK	CONTENT	MP	Key
#5	1	NBT	D	1	5.NBT.B.5	N/A	135616

1782

Enter the product.

$$4238 \times 32$$

The calculator interface includes a top row of navigation buttons: left arrow, right arrow, undo, redo, and a clear button (X). Below this is a numeric keypad with buttons for digits 1-9, 0, a decimal point, and a fraction template button.

Key: 135616

Rubric: (1 point) Student enters the correct product.

Item	Claim	Domain	Target	DOK	CONTENT	MP	Key
#6	2	NBT	C	2	5.NBT.B.7	2	B

2023

Connor is buying tickets to a concert. The concert he and his friends want to see costs \$4.75 per ticket. Connor has \$26.00 total.

What is the **greatest** number of tickets Connor can buy?

- (A) 4
- (B) 5
- (C) 6
- (D) 7

Key: B

Rubric: (1 point) Student selects the correct number of tickets.

Item	Claim	Domain	Target	DOK	CONTENT	MP	Key
#7	1	NF	E	2	5.NF.A.2	N/A	D

2078

Jen measured the growth of a sunflower.

- In week one, it grew $2\frac{1}{2}$ inches.
- In week two, it grew $2\frac{3}{4}$ inches.
- In week three, it grew $3\frac{1}{4}$ inches.

How much did the sunflower grow over all three weeks?

- Ⓐ $5\frac{3}{4}$ in
- Ⓑ $7\frac{1}{2}$ in
- Ⓒ 8 in
- Ⓓ $8\frac{1}{2}$ in

Key: D

Rubric: (1 point) Student selects the correct growth of the sunflower.

Item	Claim	Domain	Target	DOK	CONTENT	MP	Key
#8	1	MD	I	2	5.MD.C.4, 5.MD.C.3	N/A	24

#18	4	MD, NBT	D	2	5.MD.C, 5.NBT.B.7	1, 2, 5, 6	3

1894

The bed of a truck is stacked with boxes of paper. The boxes are stacked 5 boxes deep by 4 boxes high by 4 boxes across, as shown in the picture.

- When the driver is in the **empty** truck, the mass is 2948.35 kilograms.
- The mass of 1 box of paper is 22.5 kilograms.
- The driver delivers some of the boxes of paper at his first stop.
- The truck has to drive over a bridge on the way to the next stop.
- Trucks with a mass greater than 4700 kilograms are **not** allowed to drive over the bridge.

Enter the **minimum** number of boxes of paper the driver must deliver at the first stop to be allowed to drive over the bridge.
